• **Market Place (Paris Suite) 14.30-16.30**

• **Workshops 14.00-15.15 OR 15.45-17.00 (Pre-Conference bookings required)**

• **Medical Exhibition (London Suite) 13.00 to 16.30**

Booking REQUIRED for the workshops. Limited Availability

Market Place (Paris Suite)

Best described as "Speed dating at work"! The whole afternoon will be round-table discussions. This will be around 15 tables, each with a leader and a topic. You will be able to choose a table, have 15 minutes on a topic, then move to another table, allowing up to about 5-6 short sessions of your choice. No booking for these sessions is necessary, just relax and pick a few tables of your choice.

Topics are to be confirmed but may include:

Everything you want to know about preparing your CMHP Portfolio

Self administration of medication on in inpatient mental health ward

National Dementia Strategy
Clozapine clinic - seamless care for outpatients
Clinical trials and pharmacy- a rough guide
Using technology to enhance patient experience
"Outsourcing Pharmacy Supply to the Private Sector" - Lessons Learned.
Medicines reconciliation
Pharmacist led groups in specialised Inpatient alcohol detoxification
Choice and medication - how to use the website
Can 'One stop' work in mental health?
IM injections in mental health using MEDUSA

• **And Medical Exhibition (London Suite)**

• **And/or Workshops**

Delegates pre-conference selection of the following workshops:

Diploma Presentations (Rooms 4 & 6);

Celia Feetam, University of Aston

Therapeutic Drug Monitoring (Room 7);

- 13.00 Departure

College of Mental Health Pharmacy

Incorporating UK Psychiatric Pharmacy Group

The CMHP exists to ensure best treatment with medicines for people with mental health needs and their carers through help and support by psychiatric pharmacy in improving pharmaceutical care. This is being achieved by developing educational facilities and accreditation for pharmacists, providing support through local and national resources and a network of support for psychiatric pharmacy including a mentorship programme, regular organised training, bulletins, newsletter, email group and website. Promoting the profile of the specialty of psychiatric pharmacy is also an essential feature of the CMHPs work.

The CMHP believes that:

- Appropriate therapy with medicines helps treat mental health problems, minimises relapse and reduces suicide.
- The aim of the mental health pharmacy team is the safety of patients, by making sure that only those people who need medicines receive them and at the optimum dose.
- All mental health service users should have the support of, and access to, independent education and advice about medicines, preferably from a specialist mental health pharmacy team.

Corporate Partners

(in alphabetical order):

Exhibitors include
