Corporate Partners for 2012 are:

The College of Mental Health Pharmacy is a Registered Charity and aims to ensure the best treatment with medicines for people with mental health needs. The College believes that pharmaceutical care for people with mental health problems is improved by providing the pharmacy team members with high quality education and support about mental health conditions and their management.

The College delivers this by a combination of:

- Accreditation of specialist mental health pharmacists
- Delivery of high quality educational resources for pharmacists and pharmacy technicians
- Supporting choice for people by making available unbiased information on medicines
- Providing expert input to National Guidelines and health policy for medicines in mental health
- Supporting and disseminating research in the field of mental health pharmacy
